

## INDEX TO VOLUME 5

This index covers the issues for 1998, as follows: January (Number 1), pages 1–90; February (Number 2), pages 91–202; March (Number 3), pages 203–282; April (Number 4), pages 283–372; May (Number 5), pages 373–556; June (Number 6), pages 557–654; July (Number 7), pages 655–752; August (Number 8), pages 753–846; September (Number 9), pages 847–944; October (Number 10), pages 945–1044; November (Number 11), pages 1045–1136; and December (Number 12), pages 1137–1260. The abbreviations used throughout the index are spelled out in the footnote below.

### SUBJECTS

- Abdominal pain, *see also* Pelvic pain  
in elders, adverse outcomes in, 1163
- ABEM, certification and faculty salary/benefits, 1177
- Abortion(s), spontaneous, vs ectopic pregnancy, progesterone to discriminate, 309
- Absorption, topical drug, with low-frequency sonophoresis, 35  
topical drug, with tape stripping, 1051
- Abstract(s), 1997 SAEM Midwest Regional Meeting, 74–80  
1998 SAEM annual meeting, 375–543; (*commentary*), 373
- Abuse, *see* Domestic violence; Substance abuse
- Academic department(s) of emergency medicine, attributes of establishing, 1091  
in county hospitals, financial needs of (letter), 281  
improving research strategies, 147  
infrastructure to support research, 177  
managed care effects on, 1095
- Academic development (presidential address), 73
- Academic emergency medicine, *see also* Education; Emergency medicine; Research  
attributes of establishing department of EM, 1091  
managed care effects on, 1095  
public health initiatives, 935
- Academic Emergency Medicine*, editorship of (*commentary*), 1137
- Academic emergency physician(s), *see* Faculty
- Academic medicine, *see also* Education  
attributes of establishing department of EM, 1091
- EM as discipline in (*commentary*), 1144
- Academic physician(s), need to understand molecular biology (*commentary*), 945
- Access, IV, out-of-hospital, cost/concordance with criteria, 878
- Access to care, delay in, for stroke symptoms, 45  
for poor (Kennedy Lecture), 1140  
routine, in ED patients, 781
- Accident(s), *see* Fall(s); Pedestrian injury(ies); Poisoning(s); Toxic exposure(s); Trauma
- cerebrovascular, *see* Stroke(s)
- Accreditation, cost of RRC-EM site survey (letter), 749
- Accuracy(ies), of pulse oximetry, skin pigmentation and, 965
- Acetylsalicylic acid, use in chest pain patients calling 9-1-1, 1146
- ACGME, cost of RRC-EM site survey (letter), 749
- Acid ingestion(s), thermal injury by neutralization/dilution, 286
- Acidosis, phlebotomy technique effect on bicarbonate values, 40
- ACLS, multimedia vs standard learning of, 702; (*commentary*), 655
- Acquired immunodeficiency syndrome, new-onset seizures in, guidelines for, 905
- Acuity, patient, and National Triage Scale categorization, 141
- Acute myocardial infarction(s), *see* Myocardial infarction(s)
- Acute respiratory distress syndrome, after resuscitation from hemorrhage, 659
- Adhesive(s), *see* Tissue adhesive(s)
- Adhesive tape stripping, before EMLA cream application, 1051
- Administration, cost of RRC-EM site surveys (letter), 749  
county hospitals' financial needs (letter), 281  
improving information management in EM, 162; (*commentaries*), 268; 269
- Medicaid patients' payment of ED bills, 330  
open-door policy in ED (letters), 840; 841
- Administration route(s), *see* Route(s) of administration
- Admission(s), appropriateness of, outcomes to assess, 986  
of elders, rate of, 1157  
of elders with abdominal pain, 1163  
hospital, in ALS vs BLS field care, 592  
hospital, physician–patient language disparity and (letter), 86; (*correction*), 277
- Admission rate(s), and National Triage Scale categorization, 141
- Adolescent(s), alcohol detection methods in, 607  
“ecstasy” causing hyponatremia and SIADH (letter), 839
- Adson's test, false-positive rate, for thoracic outlet syndrome, 337

Abbreviations in the index: ACLS = Advanced Cardiac Life Support; AED = automated external defibrillator; AIDS = acquired immunodeficiency syndrome; ALS = advanced life support; AMI = acute myocardial infarction; ANCOVA = analysis of covariance; ANOVA = analysis of variance; BLS = basic life support; BP = blood pressure; CABG = coronary artery bypass grafting; CK = creatine kinase; CK-MB = creatine kinase-MB; CO<sub>2</sub> = carbon dioxide; CPR = cardiopulmonary resuscitation; DEEDS = Data Elements for Emergency Department Systems; ECG = electrocardiogram, electrocardiographic; ED = emergency department; EM = emergency medicine; EMT = emergency medical technician; EP = emergency physician; FDA = Food and Drug Administration; GCS = Glasgow Coma Scale; G6PD = glucose-6-phosphate dehydrogenase; HBO = hyperbaric oxygen; IM = intramuscular; IRB = institutional review board; IV = intravenous; KUB = kidneys, ureters, and bladder; LET = lidocaine, epinephrine, and tetracaine; MANOVA = multivariate analysis of variance; PALS = Pediatric Advanced Life Support; REACT = Rapid Early Action for Coronary Treatment; RRC-EM = Residency Review Committee for Emergency Medicine; SAEM = Society for Academic Emergency Medicine; SIADH = syndrome of inappropriate antidiuretic hormone secretion; SQ = subcutaneous; and VAS = visual analog scale.

- Advance directive(s), for Jehovah's Witnesses' blood refusal, 815; 824; (commentaries), 753; 755  
 legal reasoning in (commentary), 755
- Advanced Cardiac Life Support, multimedia vs standard learning of, 702; (commentary), 655
- Advanced life support, outcomes of field care, vs BLS, 592  
 patient recall of instructions/risks in transport refusal, 796; (commentary), 753
- Adverse outcome(s), *see also* Complication(s)  
 in elders with abdominal pain, 1163  
 in gatekeeping (letters), 840; 841  
 geriatric screening for, 883  
 prevention in occult bacteremia (letters), 1230; 1230  
 testicular infarction in epididymitis (brief report), 1128  
 troponin/CK-MB ability to predict, 768
- Adverse reaction(s), to Lindane (brief report), 1126
- Advice, negative, about career in EM, 69; (commentary), 1
- Advisor(s), negativity regarding EM as career choice, 69; (commentary), 1
- Advocacy, Doctors Without Borders (commentary), 1138  
 as role of EPs, 348
- AED(s), computer-aided instruction on, 709
- Aesthetics, *see* Cosmesis
- Age effect(s), on visual analog pain scale clinically significant difference, 1086
- Aged, *see* Elder(s)
- AHA, multimedia learning of ACLS, 702; (commentary), 655
- AIDS, new-onset seizures in, guidelines for, 905
- Airway management, *see also* Intubation(s)  
 cricothyrotomy rate and EM residency development, 247  
 in Japan, restrictions on, 613  
 percutaneous transtracheal ventilation without paralysis, 320
- Airway obstruction(s), *see also* Asthma  
 heliox for croup (brief report), 1130
- Airway visualization, in direct laryngoscopy (letter), 844; 919
- Alabama, pediatric pedestrian injury surveillance in, 685
- Alcohol, effect on traumatic brain injury/hemorrhagic shock, 9
- Alcohol intoxication, repeat ambulance use for, risk for assault, 325
- Alcohol problem(s), in ED, detection of, 1200  
 in ED, intervention and referral for, 1210  
 neglect by EM (letter), 280
- Alcohol use, in adolescents, detection methods of, 607  
 in elders with closed head trauma, 678  
 epidemiology of ED visits related to, 788
- Alcohol Use Disorders Identification Test, for ED use, 1200
- Algorithm(s), for alcohol detection in ED, 1210
- Alkali therapy, for acid ingestion, thermal injury risk, 286
- Allergic contact dermatitis (clinical pearls), 813
- Allergy(ies), fixed drug eruptions (clinical pearls), 1018
- Allied health, *see* Emergency medical services; Emergency medical technician(s); Paramedic(s)
- ALS, outcomes of field care by, 592
- Altered level(s) of consciousness, from "ecstasy" use (letter), 839
- Altered mental status, hypoglycemia diagnosis in, 691
- Amanita smithiana* mushroom(s), renal failure from ingestion of, 808
- Ambulance(s), *see also* Emergency medical services; Out-of-hospital care; Transport(s)  
 elder utilization of, 1157  
 in Poland, 1187  
 refusal by hypoglycemic diabetics, 768; (commentaries), 753; 755; 1080  
 refusal of, *see also* Refusal of transport  
 repeat use for alcohol intoxication, risk of assault, 325  
 use of, in chest pain, gatekeeper effect on, 587; (commentary), 563
- Ambulatory monitoring, of EPs in night shifts, 871
- American Board of Emergency Medicine, certification and faculty salary/benefits, 1177
- American Heart Association, multimedia learning of ACLS, 702; (commentary), 655
- Amphetamine(s), "ecstasy" causing hyponatremia and SIADH (letter), 839
- Analgesic(s), IM ketorolac vs oral ibuprofen, 118; (commentary), 92  
 pediatric, 50% nitrous oxide/50% oxygen during laceration repair, 112  
 research in, focus for (commentary), 92  
 safety of IV ketamine in pediatrics, 971
- Analysis(es), *see also* Factor analysis; Statistics
- Analysis of covariance, use of, 258
- Analysis of variance, use of, 258
- ANCOVA, use of, 258
- Anesthetic(s), local, infiltration pain and order of injection, 105  
 local, infiltration pain inside vs outside wound, 100  
 local, LET solution to reduce infiltration pain, 108  
 local, pericranial injection of, in resistant headaches (brief report), 1224  
 subcutaneous buffered lidocaine for IV cannulation, 1057  
 topical, LET solution for laceration repair, 108  
 topical, tape stripping before application, 1051
- Annual meeting, SAEM, *see under* Society for Academic Emergency Medicine
- ANOVA, use of, 258
- Antibiotic(s), in allergic contact dermatitis (clinical pearls), 813  
 betamethasone as adjuvant to, in pharyngitis, 567; (commentaries), 557; 559  
 for marine-acquired infection (letter), 650  
 in occult pneumococcal bacteremia (letters), 1230; 1230  
 parenteral vs oral, in *Streptococcus pneumoniae* bacteremia, 599  
 for testicular infarction (brief report), 1128
- Anticholinergic drug(s), for prevention of gastric ulcers, after cervical cord transection, 230
- Antidiuretic hormone secretion, inappropriate, from "ecstasy" use (letter), 839
- Antidote(s), for methemoglobinemia, in G6PD deficiency, 225
- Antipersonnel land mine(s), reasons to ban (commentary), 205
- Antivenin, for *Crotalidae atrox*, intraarterial administration of, 894
- Anxiety, of suturing, effect of 50% nitrous oxide/50% oxygen, 112
- Apoptosis, clinical relevance of (commentaries), 946; 948  
 mechanisms of, 1019; (commentaries), 945; 946; 948
- Appendicitis, pediatric, ultrasonography effect on outcome, 1071
- Applicant(s), *see* Residency candidate(s)
- Appointment(s), follow-up, compliance in febrile children, 996
- Appropriateness of care, *see* Medical necessity
- ARDS, after resuscitation from hemorrhage, 659
- ARIMA model(s), time series analysis using, 739
- Arrest(s), *see* Cardiac arrest(s)
- Artificial ventilation(s), *see under* Ventilation(s)
- Aspiration pneumonia, intubation difficulty in poisoned patients, 123
- Aspirin, use in chest pain patients calling 9-1-1, 1146
- Assault(s), *see also* Domestic violence  
 risk of, in repeat ambulance users for alcohol intoxication, 325
- Assertiveness, of medical control physicians, effect on refusal of transport, 4
- Assessment(s), *see* Performance assessments(s)
- Assisted ventilation(s), *see under* Ventilation(s)
- Asthma, pediatric, budesonide with prednisone for, 209; (letters), 943; 944

- severe acute, sudden-onset, rapid recovery of, 695
- Attire, physician, effect on patient satisfaction (letter), 82
- Attitude(s), analysis of, with Q-methodology, 1032
- EMT, toward physician-assisted suicide, 912; (commentary), 847
- EMT, toward work schedules, 128
- EP, professionalism in, 1193
- EP, toward radiography decision rules, 134
- AUDIT, for alcohol detection in ED, 1200
- Australasian National Triage Scale, as indicator of ED activity, 141
- Autocorrelation, autoregressive integrated moving average in, 739
- Automated external defibrillator(s), computer-aided instruction on, 709
- Automobile-pedestrian crash(es), 252; 685
- Autonomic regulation, of gastric ulcerogenesis after cervical cord transection, 230
- Autonomy, see Patient autonomy
- Autoregressive integrated moving average, 739
- Babinski sign, absence in cord compression (brief report), 1041
- Back pain, and unnecessary spinal immobilization (letter), 278
- Bacteremia(s), occult, meta-analysis of treatment (letters), 1230; 1230
- Streptococcus pneumoniae*, parenteral vs oral antibiotics, 599
- Bacteria, in buccal cellulitis (clinical pearls), 347
- in marine environments (letter), 650
- Bacterial infection(s), see Bacteremia(s); Infection(s)
- Bag-valve ventilation(s), vs demand-valve, in pneumothorax, 977
- Balanced salt solution, for ocular irrigation, with Morgan therapeutic lens, 1150
- Basic life support, outcomes of field care, vs ALS, 592
- Battering, see Domestic violence
- Bedside testing, pelvic ultrasonography by EPs, 802
- renal ultrasonography plus KUB radiography for ureteral colic, 666
- renal ultrasonography showing periportal brightness (letter), 747
- Behavior change, in alcohol interventions in ED, 1210
- Behavioral risk factor(s), in ED patients, 781
- Benefit(s)/salary(ies), of EM faculty, 1177
- Bereavement, after death of child, in PALS curriculum, 242
- Beta-human chorionic gonadotropin, less than 1,000 mIU/mL, 304
- Betamethasone, in acute exudative pharyngitis treatment, 567; (commentaries), 557; 559
- Bicarbonate value(s), phlebotomy technique effect on, 40
- Bill(s), ED, Medicaid patients' payment of, 330
- Billing data, for determination of adolescent alcohol use, 607
- Bioassay(s), quantal, of HBO effect in cerebral ischemia, 18; (erratum), 725
- Biochemical marker(s), for ectopic pregnancy, 300; 304; 309
- Biology, molecular, EPs' need to understand (commentary), 945
- Bite(s), snake, intraarterial antivenin for, 894
- Bladder(s), see KUB
- Blank, E., *Pediatric Images: Casebook of Differential Diagnosis* (book review), 647
- Bleeding, see also Hemorrhage(s)
- vaginal, ectopic pregnancy clinical prediction model, 951
- vaginal, pelvic ultrasonography by EPs, 802
- Blood alcohol concentration(s), of adolescents in ED, 607
- Blood loss, see also Hemorrhage(s)
- retinal venous oxygen saturation correlation with, 577
- Blood pressure(s), of EPs in night shifts, 871
- Blood refusal card(s), of Jehovah's Witnesses, 815; 824; (commentaries), 753; 755
- Blood sampling, technique effect on bicarbonate values, 40
- Blood sugar, see Glucose
- BLS, outcomes of field care, 592
- Board certification, of rural West Virginia EPs, 333
- Body weight, endotracheal drug administration in obesity (letter), 942
- Book review(s), 194; 647; 938; 1118
- Brain attack(s), see Stroke(s)
- Brain injury(ies), and hemorrhagic shock, alcohol effect on, 9
- Brief intervention(s), for alcohol problems in ED, 1210
- Brief MAST, for alcohol detection in ED, 1200
- Brief Negotiation Interview, for alcohol detection in ED, 1210
- Brillman, J. C., Quenzer, R. W., *Infectious Disease in Emergency Medicine: 2nd Edition* (book review), 940
- Brofeldt, Bo Tomas, memorial for, 1229
- Bronchospasm(s), see Asthma
- Bruised cheek syndrome, in infant (clinical pearls), 347
- BSS Plus, for ocular irrigation, with Morgan therapeutic lens, 1150
- Buccal cellulitis, in infant (clinical pearls), 347
- Budesonide, inhaled, with prednisone, in pediatric asthma, 209; (letters), 943; 944
- Buffered lidocaine, see under Lidocaine
- Bullet wound(s), to the head, tangential, intracranial hemorrhage in, 672
- Burn(s), prevention with home fire safety intervention, 220
- ring tourniquet syndrome after (clinical pearls), 813
- from sonophoresis, 35
- Burnout, EMT schedule modification and, 128
- predictive validity of EP job satisfaction instruments, 234
- Bypass grafting, coronary artery, minimally invasive (letter), 746
- Bystander(s), in rapid response to stroke, 45
- CABG, minimally invasive, complication of (letter), 746
- CAGE questionnaire, for alcohol detection in ED, 1200
- Call(s), see Telephone call(s)
- Canada, ALS vs BLS field care outcomes in, 592
- Cancer(s), risk factors among ED patients, 781
- Cannulation, IV, subcutaneous buffered lidocaine for, 1057
- IV, tape stripping pre-EMLA cream application, 1051
- Capnometry, basic principles, 628
- clinical applications, 637
- Car-pedestrian crash(es), 252; 685
- Carbon dioxide, end-tidal, monitoring of, 628; 637
- Carbon monoxide, half-life of, in schoolchildren, 992
- mass exposure in schoolchildren, 992
- poisoning from spray paint inhalation (letter), 84
- poisoning with, HBO in (letters), 1231; 1231
- Carboxyhemoglobin, in pediatric mass exposure to carbon monoxide, 992
- Card(s), blood refusal, of Jehovah's Witnesses, 815; 824; (commentaries), 753; 755
- Cardiac arrest(s), see also Cardiopulmonary resuscitation
- cerebral cooling effect on neurologic outcome, 25
- endotracheal tube for drug administration (letter), 942
- Cardiac dysrhythmia(s), seizure-like symptoms in (letter), 196
- Cardiac troponin(s), prognostic ability in myocardial ischemia, 758
- Cardiopulmonary resuscitation, see also Resuscitation
- cerebral cooling effect on neurologic outcome, 25
- end-tidal CO<sub>2</sub> monitoring in, 637
- Cardiovascular function, ethanol effect in traumatic brain injury/hemorrhagic shock, 9
- Career choice(s), negative advice from faculty about EM, 69; (commentary), 1
- Carmack-Lehane scale(s), modified, 919
- Case finding, see Screening

- Case report form(s), in research protocol, 1218  
 Catheterization, IV, subcutaneous buffered lidocaine for, 1057  
   IV, tape stripping pre-EMLA cream application, 1051  
 Caustic ingestion(s), neutralization/dilution for, thermal injury risk, 286  
 Cell suicide, 1019; (commentaries), 945; 946; 948  
 Cellophane tape stripping, before EMLA cream application, 1051  
 Cellulitis, buccal, in infant (clinical pearls), 347  
   rapidly progressive, in marine-acquired infection (letter), 650  
 Central nervous system lesion(s), in AIDS seizures, 905  
 Central venous oxygen saturation, retinal venous oxygen saturation correlation with, 577  
 Cephalgia(s), *see* Headache(s)  
 Cerebral cooling, effect on CPR neurologic outcome, 25  
 Cerebral ischemia(s), *see also* Stroke(s)  
   cerebral cooling effect on neurologic outcome, 25  
   delay in accessing care for, 45  
   HBO effect on neurologic outcome, 18; (erratum), 725  
 Cerebral tissue perfusion, ethanol effect in traumatic brain injury/hemorrhagic shock, 9  
 Cerebrovascular accident(s), *see* Stroke(s)  
 Certification, for physicians not completing EM residencies (letters), 81; 81  
   of rural West Virginia EPs, 333  
 Cervical cord(s), transection of, gastric ulcerogenesis prevention after, 230  
 Cervical spine(s), radiography of, EP attitudes toward recommendations for, 134  
 Chain of recovery, for stroke, 352  
 Chair(s), role in developing research infrastructure, 177  
 Charge(s), hospital, to recover unpaid ED bills, 330  
   hospital, with ultrasonography in pediatric appendicitis, 1071  
 Chemical exposure(s), in Tokyo subway sarin attack, 613; 618; 625  
 Chest pain, ambulance use in, gatekeeper effect on, 587; (commentary), 563  
   aspirin use in patients calling 9-1-1, 1146  
   onset of, interview questions to assess, 773  
   reducing delay in coronary treatment, 726; (commentary), 656  
 Children, *see* Pediatrics  
 Christianity, Jehovah's Witnesses' blood refusal card, 815; 824; (commentaries), 753; 755  
 Chronic disease(s), *see also* specific diseases  
   behavioral risk factors in ED patients, 781  
 Circadian rhythm(s), melatonin for shiftwork sleep disorder (letter), 842  
 CK, as ectopic pregnancy predictor, 300  
 CK-MB, vs troponins, in myocardial ischemia, 758  
 Clerkship(s), in university vs community hospital, educational opportunities, 343  
 Clinical course(s), complicated, severe sepsis as predictor of, 1169  
 Clinical criteria, for severe sepsis, 1169  
 Clinical decision rule(s), for radiography, EP attitudes toward, 134  
 Clinical Pearls, fever and facial swelling, 347  
   finger swelling and discharge, 813  
   pediatric facial swelling, 146  
   rash, 1018  
 Clinical prediction model(s), for ectopic pregnancy, 951  
 Clinical trial(s), research protocols for, 1218  
 Clinical wound evaluation scale(s), minimum clinically significant difference on, 583; (commentary), 564  
 Clinically significant difference(s), *see* Minimum clinically significant difference(s)  
 Closed head trauma, in elders, mechanisms of, 678  
 Clothing, physician, effect on patient satisfaction (letter), 82  
 CNS lesion(s), in AIDS seizures, 905  
 CO<sub>2</sub>, end-tidal, monitoring of, 628; 637  
 Colic, ureteral, ultrasonography plus KUB radiography to evaluate, 666  
 Collaboration, in EM research, 152; (commentary), 267  
   in research, importance of, 924  
 Collision(s), motor vehicle-pedestrian, 252; 685  
 Color of skin, effect on pulse oximetry accuracy, 965  
 Color-flow Doppler ultrasonography, in testicular infarction (brief report), 1128  
 Coma(s), from "ecstasy" use (letter), 839  
 Coma score(s), and intubation difficulty in poisoned patients, 123  
 Comfort, *see* Patient comfort  
 Communication(s), *see also* Physician-patient communication(s)  
   nursing home-ED, form for (brief report), 1123  
   power of words (commentary), 1137  
 Communication system(s), need for, in Japan, 613; 618  
 Community assessment(s), of pediatric pedestrian injuries, 685  
 Community health, *see also* Public health  
   assault surveillance with ambulance data, 325  
   delay in accessing stroke care, 45  
   ensuring chain of recovery for stroke, 352  
   initiatives for EM, 935  
   interview questions about chest pain onset and delay in care, 773  
   pedestrian-motor vehicle crash reduction, 252  
   reducing delays in coronary treatment, 726; (commentary), 656  
 Community hospital(s), educational opportunities, vs university hospitals, 343  
 Community intervention(s), to reduce delays in coronary treatment, 726; (commentary), 656  
   transfer form from nursing home to ED (brief report), 1123  
 Community response(s), in Tokyo subway sarin attack, 613  
 Complete heart block(s), seizure-like symptoms and (letter), 196  
 Compliance, with follow-up visits, in febrile children, 996  
   paramedic, with IV access criteria, 878  
 Complication(s), *see also* Adverse outcome(s)  
   of minimally invasive CABG (letter), 746  
   of pediatric lumbar puncture (letter), 196  
   reaction to Lindane, prevention of (brief report), 1169  
   severe sepsis as predictor of, 1169  
 Compression, spinal cord, in absence of reflex signs (brief report), 1041  
 Computed tomography, in AIDS seizures, 905  
   in elders with closed head trauma, 678  
   head, EP attitudes toward recommendations for, 134  
   in tangential gunshot wounds to the head, 672  
 Computer(s), grant web sites, 168  
   for information management in EM, 162; (commentary), 268; 269  
   Q-methodology to analyze subjectivity, 1032  
   in search for trustworthy p-value (commentary), 1048  
 Computer-aided learning, of ACLS, vs standard learning, 702; (commentary), 655  
   for AED skill maintenance, 709  
 Concordance, *see* Compliance  
 Consciousness level(s), from "ecstasy" use (letter), 839  
   and intubation difficulty in poisoned patients, 123  
 Consent, *see* Informed consent  
 Contact dermatitis, allergic (clinical pearls), 813  
 Control group(s), positive, in analgesic research (commentary), 92  
 Cooling, cerebral, effect on CPR neurologic outcome, 25

- Coping with the Death of a Child, in PALS curriculum, 242  
 CORD, standardized letter of recommendation of, 1101; (commentary), 1045  
 Cord compression, in absence of reflex signs (brief report), 1041  
 Coronary artery bypass grafting, complication of (letter), 746  
 Coronary treatment, delay in, REACT trial to reduce, 726; (commentary), 656  
 Corticosteroids, betamethasone in pharyngitis treatment, 567; (commentaries), 557; 559  
 Cortinarius mushroom(s), renal failure from, 808  
 Cosmesis, with 2-octylcyanoacrylate wound closure, 94  
 of tissue adhesives, and physician proficiency, 1012  
 Cosmesis scale(s), wound, minimum clinically important difference on, 583; (commentary), 564  
 Cost(s), *see also* Charge(s)  
 of computer-aided instruction in AED use, 709  
 and follow-up compliance in febrile children, 996  
 with open-door policy in ED (letters), 840; 841  
 of out-of-hospital IV access, 878  
 of RRC-EM site survey (letter), 749  
 Costoclavicular maneuver(s), false-positive rate, for thoracic outlet syndrome, 337
